PACKAGE SIZE

4x1qt

RESTRICTED USE

No

Bootstrapped and ready to serve, we deliver battle-tested chemistries and an experience like no other. Proud to be 100% American-owned, our mission is to help you every step of the way.

Piston™, with the active ingredient chlorfenapyr, is a broad-spectrum insecticide and miticide with contact and ingestion activity that affects energy metabolism. Translaminar movement distributes active ingredient to the underside of leaves where mites feed.

- Residual control for 14–21 days
- · Key tool for management of thrips
- Control of nymphs and adults of many mite families
