

Contains sulfentrazone, the active ingredient used in Dismiss®.

SELECTIVE HERBICIDE

QUICK WEED CONTROL OF GRASSES, SEDGES, AND BROADLEAVES

Acquit™ 4 F is a soil-applied selective herbicide that protects turf and non-crop sites from tough grasses, sedges, and broadleaf weeds including green kyllinga and yellow and purple and nutsedge. Acquit 4 F provides post-emergence control to combat actively growing weeds and should be applied at the early stages of development. The active ingredient, sulfentrazone, is absorbed through the roots and foliage, inhibiting the production of chlorophyll and germination, for long-lasting residual control. Save time and money by minimizing weed populations and the need for retreats with Acquit 4 F.

KEY BENEFITS

- Ideal for established turf
- Superior control of nutsedge
- Tank-mix compatible with burndown herbicides
- Gentle on cool and warm-season grasses

KEY USES

- Athletic Fields
- Golf Courses
- Highways & Railways
- Industrial Areas
- Institutional Lawns
- Sod Farms

PRODUCT NOTES

EPA REGISTRATION NUMBER
91234-32

ACTIVE INGREDIENT
Sulfentrazone 39.6%

FORMULATION
Suspension Concentrate

HRAC NUMBER
14

SIGNAL WORD
Caution

PACKAGE SIZE
4 x 64 fl oz
2 x 2.5 gal
265 gal

RESTRICTED USE
No

Refer to label for specific use restrictions.

Relevant. Simple. Reliable.

APPLICATION INSTRUCTIONS

Apply Acquit 4 F as a broadcast treatment at rates indicated in the product label, in enough water to obtain good coverage and to make at least 10 gallons finished spray per acre. When Acquit 4 F is tank mixed or applied alone, use water, as the carrier. In order to assure appropriate amounts of moisture for activation of product, best results will be obtained if Acquit 4 F is applied in early spring, late summer or fall.

Make application with a boom and nozzle sprayer or boomless application system. Make application at spray pressure of 25 psi or below, unless the manufacturer specifies otherwise. Achieve best possible spray delivery and coverage, with minimum amounts of fine spray droplets by utilizing properly chosen and adjusted nozzles, spray tips, and screens. Applications only to railroad rights of way can be made by helicopter. Do not allow spray to drift onto adjacent plants as injury to other plants may occur.

When Acquit 4 F has been activated, it will provide control of listed weed species in the product label. The level of control will depend on the size and type of weed species when Acquit 4 F is activated. The control of listed germinating weed species in the product label will be reduced when rain or irrigation follows a period of dry weather.

TURF GRASS APPLICATION RATES

GRASS TYPE	MAXIMUM USE RATE	
	lb. ai./A	fl. oz./A
COOL-SEASON GRASSES		
Fine Fescue, Kentucky Bluegrass, Perennial Ryegrass, Tall Fescue	0.125 - 0.25	4.0 - 8.0
Creeping Bentgrass	0.125	4.0
WARM-SEASON GRASSES		
Bahiagrass, Bermudagrass, Buffalograss, Carpetgrass, Centipedegrass, Kikuyugrass, Seashore Paspalum, St. Augustinegrass, Zoysiagrass	0.25 - 0.375	8.0 - 12.0

KEY WEEDS

- Bedstraw
- Beggarwee
- Black Medic
- Buttercups
- Carolina geranium
- Carpetweed
- Chickweed
- Cinquefoil
- Clover
- Copperleaf
- Crabgrass; large, smooth
- Cudweed
- Dandelion
- Dock
- Dollarweed
- Eclipta
- Evening primrose
- Fiddleneck
- Filaree
- Galinsoga
- Garlic, wild
- Goldenrod
- Ground ivy
- Groundsel
- Henbit
- Knawel
- Knotweed
- Kochia
- Kyllinga; false green, green
- Lambsquarters
- Lawn burweed
- Lespedeza
- Mallow
- Nutsedge; purple, yellow
- Onion, wild
- Parsley
- Pigweed
- Sedge; cylindrical, globe, Surinam, Texas
- Shepherd's purse
- Smartweed, PA
- Sorrel
- Speedwell
- Spurge
- Star of Bethlehem
- Velvetleaf
- Violet
- Woodsorrel
