No

Unleash the power of Devenir™ to quickly stop insects from feeding. Devenir is an insecticide containing the active ingredient pymetrozine, which is compatible in IPM programs with low toxicity to beneficial insects and mites. With residual activity and fast-acting control, Devenir is an ideal choice for whitefly and aphid control.

PRODUCT INFO

- Aphids and whiteflies stop feeding within hours
- Unique mode of action helps prevent insect resistance
- Translaminar and systemic activity provide protection throughout plant tissues
