Caution

RESTRICTED USE Nο

Bootstrapped and ready to serve, we deliver battle-tested chemistries and an experience like no other. Proud to be 100% American-owned, our mission is to help you every step of the way.

Empero™ Q-Pak, with the active ingredient halosulfuron-methyl, moves through weeds to affect underground growing points, offering highly effective nutsedge control while remaining gentle on turfgrass. It comes in a convenient pre-measured pack with a rapidly dissolving formulation for use in a 1-gallon sprayer, making it an easy and efficient turf management option.

PRODUCT INFO

- Easy-to-use pre-measured pack size for backpack 1-gallon sprayer
- Excellent control of both yellow and purple nutsedge
- Gentle on established turf & landscapes
