Protégé™, powered by azoxystrobin and difenoconazole, brings reliable disease control to golf courses. The dual modes of action work together to provide broad-spectrum control. Protégé performs in high temperatures, targeting a broad spectrum of turf diseases such as dollar spot, anthracnose, and more.

PRODUCT INFO

- Control over 20 turf diseases
- Quick and easy movement from roots to leaves
- Preventative and curative protection
- Apply under high temperatures and humidity without heat restrictions
