

## WIN THE FIGHT AGAINST WEEDS WITH RANCOR 75 DF

Win the fight against weeds in your field with Rancor™ 75 DF. Rancor 75 DF uses the active ingredient metribuzin to fight against many of the toughest broadleaf weeds and grasses commonly found in alfalfa, barley, potato, and chickpea crops. Metribuzin is a Group 5 herbicide providing broad-spectrum control of Group 2 and Group 9. Plus, this herbicide has flexible tank-mix compatibility, so you can use it with a variety of other herbicides for added weed control.

### KEY BENEFITS

- Tough control of broadleaf weeds and grasses
- Proven chemistry for long-lasting weed control
- Application flexibility and tank mix compatibility
- Excellent residual activity

### KEY USES

- |             |                  |
|-------------|------------------|
| • Alfalfa   | • Field Corn     |
| • Asparagus | • Garbanzo Beans |
| • Barley    | • Potatoes       |
| • Carrots   | • Soybeans       |

### PRODUCT NOTES

#### EPA REGISTRATION NUMBER

91234-57

#### ACTIVE INGREDIENT

Metribuzin 75.0%

#### FORMULATION

Water Dispersible Granule

#### HRAC NUMBER

5

#### SIGNAL WORD

Caution

#### PACKAGE SIZE

4 x 5 lb  
2 x 25 lb

#### RESTRICTED USE

No

## MIXING

It is the pesticide user's responsibility to ensure that all products are registered for the intended use. Read and follow the applicable restrictions and limitation and directions for use on all product labels involved in the tank mixing. Users must follow the most restrictive directions for use and precautionary statements on each product in the tank mixture. When using this product, make sure the sprayer is completely clean, free of rust or corrosion which occurs from winter storage. Examine strainers and screens to be sure the sprayer is clean from previously used pesticides.

Keep any tank mix containing this product agitated and sprayed out immediately. Do not allow tank mixes to stand for prolonged periods of time.

The proper mixing procedure for Rancor 75 DF alone or in tank mix combinations with other herbicides is:

1. Fill the spray tank 1/4 to 1/3 full with clean water.
2. Add specified rate of this product while recirculating and with agitator running.
3. Follow the triple rinse procedure described under "Storage And Disposal" to ensure that all product is removed from the container.
4. Mix thoroughly and add clean water to fill spray tank to desired level.
5. Add the other herbicide to tank last and agitate thoroughly.
6. Continue agitation during application and until sprayer tank is empty.

## KEY WEEDS

Barnyardgrass  
Bluegrass  
Bristly Starbur  
Broadleaf Signalgrass  
Carpetweed  
Cheat  
Chickweed, Common  
Chickweed, Mouseear
