

Contains hexythiazox, the active ingredient used in Onager® Miticide.

## INSECTICIDE

# RUGER™ 1 EC

## STOP YIELD-ROBBING MITES NOW AND LATER

Ruger™ 1 EC provides highly effective control of yield-robbing tetranychid mites on a wide range of row and tree crops. Ruger 1 EC stops the mite life cycle by controlling both immature-stage mites and mite eggs, and by later rendering eggs unviable when deposited post-application.

Ruger 1 EC miticide works on-contact to penetrate the leaf tissue and quickly reach mites across the plant surface. Ruger 1 EC continues to hunt down mite activity with extended residual, providing long-lasting control of damaging mites. Ruger 1 EC is tough on targeted mites, yet gentle on beneficial insects.

### KEY BENEFITS

- On-contact and extended residual control
- Easy on beneficial insects
- Stops immature mites and eggs
- Effective translaminar movement

### KEY USES

- Alfalfa
- Almonds
- Apples
- Cherries
- Citrus
- Corn
- Cotton
- Grapes
- Sorghum
- Stone fruits

### PRODUCT NOTES

#### EPA REGISTRATION NUMBER

91234-37

#### ACTIVE INGREDIENT

Hexythiazox 11.8%

#### FORMULATION

Emulsifiable concentrate

#### IRAC NUMBER

10A

#### SIGNAL WORD

Caution

#### PACKAGE SIZE

4 x 120 fl oz

2 x 2.5 gal

#### RESTRICTED USE

No

Refer to label for specific use restrictions.
