BATTLE-TESTED CHEMISTRY
ESTD 2014

Bootstrapped and ready to serve, we deliver battle-tested chemistries and an experience like no other. Proud to be 100% American-owned, our mission is to help you every step of the way.

Semera™ SC herbicide offers pre- and post-emergent control of problematic grasses and broadleaf weeds in woody ornamentals, dormant Bermudagrass, and non-crop areas. The active ingredient, flumioxazin, inhibits an essential enzyme for chlorophyll biosynthesis, working on contact and through pre-emergence soil control.

PRODUCT INFO

- Long-lasting residual control
- Compatible with non-selective herbicides for expanded control
- Pre- and post-emergence activity allows for greater flexibility in application timing
- Liquid formulation is easy to mix and use
