

POST-EMERGENCE CONTROL FOR INVASIVE WEED SPECIES

EPA REG. NUMBER

91234-85

ACTIVE INGREDIENT

Rimsulfuron 25%

FORMULATION

Water-Soluble Granule

HRAC NUMBER

2

SIGNAL WORD

Caution

PACKAGE SIZE

12 x 20 wt oz

RESTRICTED USE

No

Tetris™ SG, powered by the active ingredient rimsulfuron, controls annual grasses and broadleaf weeds in non-crop areas including industrial sites, roadsides, highway medians, utility substations, airports, and more. With selective, systemic activity, Tetris SG is absorbed through the roots and foliage, translocating through the plant to provide post-emergent and long-lasting residual control.

PRODUCT INFO

- Tank-mix compatible with many other herbicides
- Broad range of application sites
- Residual activity helps prevent reemergence of many weeds
