Pyroxasulfone 41.46%

FORMULATION

Suspension Concentrate

HRAC NUMBER

15

SIGNAL WORD

Caution

RE-ENTRY INTERVAL

12 hours

PACKAGE SIZE

2 x 2.5 gal

RESTRICTED USE

No

Zannis™ SC provides extended residual control of broadleaf and grass weeds known to reduce yield potential in soybeans, corn, cotton and many other key crops. Growers facing shifting field conditions appreciate the flexible application timings and use rates that are a fraction of other residual herbicides. Choose Zannis SC for long-lasting residual control!

PRODUCT INFO

- Residual control that lasts up to 2 weeks longer than other products
- Effective against tough weeds like Waterhemp and Palmer Amaranth
- Tank-mix compatible liquid formulation with ultra-low rates
